

Phillips 66
P.O. Box 4428
Houston, TX 77210

June 5, 2020

Phillips 66 Specialty Solvents produces the following material:

- Isopentane (B)
- Isopentane (S)
- N-Pentane Hexane (S)
- Commercial Heptane
- Ultra-Low Aromatic Commercial Heptane (ULACH)
- Odorless Mineral Spirits (OMS)

These solvents are hydrocarbon-based mixtures derived from petroleum crude oil and Natural Gas Liquids. No animal or plant derived substances are processed at any time in the same production equipment used for the manufacture of solvents. We hereby confirm that the manufacturing process for the solvents do not involve the use of materials of ruminant animals (cattle, sheep, goats), non-ruminant animals (humans, insects, fish, swine, poultry, etc.), or plants.

Further, none of our refineries use Genetically Modified Organisms in the manufacture of their solvents.

Phillips 66 has established good manufacturing practices to assure that the quality of our Specialty Solvents is maintained during manufacture and distribution. Phillips 66 is confident that our solvents should be eligible for both Halal and Kosher certifications since they neither contain nor contact animal or plant derived substances.

In addition, Phillips 66 Sweeny hexane is Kosher Certified; KC# 28446-1 on January 29, 2019

Sincerely,

Li Min Tau
Director, TS&D Specialty Solvents
